Marie Christine Dorner

## The designer

Expectation, elegance, longevity are the key words which describe the career of Marie Christine Dorner.

Each project is the opportunity to tell a story, which she transcribes with rare elegance and a keen sense of her surroundings. The singularity of Marie Christine Dorner's work rests in the rigour of her research into materials, the clarity of her discourse and her sophisticated implementation. The object becomes a jewel, whether in gold or bamboo.

Many brands have benefited from her expertise: Ligne Roset, Baccarat, Bernardaud, Saint-Louis, Idée, Montis, Zeus, in terms of both furniture

and objects; then there are the French ambassadors' residencies abroad, the Presidential podium for the 14th July celebrations (which she designed in 1990 and which has been used 23 times since then).

Whether in private or public commissions or in her personal research such as the emblematic 'Une Forme, One Shape' series, Marie Christine Dorner speaks a unique language where expertise and economy of means become a remarkable luxury.

The recipient of the Grand Prix du design de la Ville de Paris in 1995, she was accorded the title, 'Chevalier de l'ordre des Arts et Lettres' in 2012.

## Concept

A repetition of uprights and shelves, becoming smaller from left to right and from bottom to top, the volume of this shelving unit appears to reduce as if disappearing towards the ceiling. This effect creates a range of unexpected, interesting storage possibilities.

Two shelving units placed back to back created a double-sided unit

which is both useful and fairly rare, thus giving rhythm to a space.

In this configuration, the back panel is partially reduced, with small separation panels bringing both rhythm and rigidity whilst retaining a degree of transparency.

## Technical description

2 versions :

- Sides in plomb lacquer; shelves in smoked oak
- Sides in satin white lacquer; shelves in gloss white lacquer

Single shelving unit :

with full-height 1T back panel, located to the right or left as per customer's requirement. Back panel is lacquered to match sides.

Double-sided shelving unit : the link is at the top of the sides and beneath the shelves. Partial back panels are lacquered to match sides.

## Dimensions

**Single shelving unit** – W 120 D 37 H 216

**Double-sided shelving unit** – W 120 D 74 H 216
