Claudio Dondoli & Marco Pucci

## The designers

Claudio Dondoli and Marco Pucci met at the Faculty of Architecture in Florence.

In 1983, having not only studied together but also shared an intense theatrical experience, they founded their studio, named Archirivolto, in Colle Val D'Elsa, against the background of the romantic Tuscan landscape around Siena: since 1989 they have concentrated exclusively on industrial design.

They hold that, today, real innovation is based on the use of technology and materials. Technology serves not to create an image, but to perform a service for the client : a good designer product, to be of real quality, must be beautiful, effective and comfortable.

## The concept

In the Cinna collection since 2009 in its split leather version, Petra is an extremely comfortable chair with a very slender design, the success of which remains undimmed.

A special outdoor version with moulded lacquered polyurethane shell was then added – choice of colours: blanc, beige, gris clair and noir. In 2016, the colour vert olive is being added to the collection.
